

LESSON 1 ASSIGNMENT

1. Based on the information you collected in Set Task No 1 and your lesson notes (in a paragraph or two) explain why you believe your district is either classified as tropical or not.
2. Submit a report based on what you observed in Set Task No 2. Submit to ½page.
3. Carry out the following:
 - a) Write a list of plants *you presently grow* which are native to tropical climates (either natives or exotics).
 - b) Make another list of plants *you grow* that are *not* native to tropical climates but look good with other tropical plants.
4. What attributes, which tropical plants have, do you like? For example it may be lush foliage, extended flowering periods, etc. Submit no more then ½ page.
5. Remember to submit your first 8 plant specimens.
