

Tropical Plants

Assignment 1

This is just a cover sheet, turn to the next page to continue.

Assignment 1

Question 1

Based on the information you collected in Set Task 1 and your lesson notes (in a paragraph or two), explain why you believe your district is either classified as tropical or not.

Question 2

Submit a report based on what you observed in Set Task 2. Submit to ½page.

Question 3

Carry out the following:

- a) Write a list of plants you presently grow which are native to tropical climates (either natives or exotics).
- b) Make another list of plants you grow that are not native to tropical climates but look good with other tropical plants.

Question 4

What attributes, which tropical plants have, do you like? For example, it may be lush foliage, extended flowering periods, etc. Submit no more than ½ page.

Question 5

Remember to submit your first 8 plant specimens.
